EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas Spinelli on March 6, 2007.

The application has been amended as follows:

IN THE TITLE

Replace title with --CAPSULE ENDOSCOPE WITH ELECTROLUMINESCENCE LIGHT SOURCE--.

IN THE ABSTRACT

In the Abstract, line 5, replace "a surface emission" to --an electroluminescence--.

IN THE CLAIMS

In claim 12, line 2, delete "surface";
line 3, replace "the" with --a--.

2. The following is an examiner's statement of reasons for allowance: Claim 1 has been amended to recited in the combination that the electroluminescence device is arranged around the observation optical unit, so that the electroluminescence device is formed on one of the entire

surface of a transparent substrate mounted on the illuminating substrate and directly on the entire surface of the illuminating substrate. Between such amended language and Applicant remarks (December 26, 2006, note page 8, second and third full paragraphs) clearly defining “electroluminescence device” as not encompassing LEDs or VCSELs (LEDs are considered in the prior art as semiconductor electroluminescent light emitting devices), the prior art of record does not explicitly teach or fairly suggest the combination as now recited in claim 1. Although the Mullick reference does explicitly mention an electroluminescent light source that is “backed” by a mirror, this reference fails to explicitly teach or even suggest that such light source is formed on the entire surface of either a transparent substrate mounted to the illuminating substrate or directly on the entire surface of the illuminating substrate itself. Even if could be assumed that the electroluminescent light source was formed on the mirror (which would be considered a substrate), it would not be reasonable to automatically assume that it is formed over the entire surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John P. Leubecker whose telephone number is (571) 272-4769. The examiner can normally be reached on Monday through Friday, 6:00 AM to 2:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Linda C.M. Dvorak can be reached on (571) 272-4764. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
